UMBRELLA HOLDER

RAINY DAYS ARE NO LONGER A PROBLEM!!

The most comfortable way to carry your umbrella on rainy days.

It is not necessary to disassemble the umbrella from the Paraplis when the rain stops.

¡USER FRIENDLY!

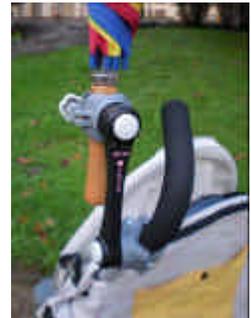

Quick and easy to install. Once fastened, simply press the button and position the umbrella at the required angle.

Thanks to its two positioning buttons the umbrella can easily be repositioned at any moment.

UNIVERSAL FASTENING SYSTEM!

Thanks to its design "Paraplis" can be used on any shape and size bar (cylindrical, oval, etc). This makes it suitable for all makes of pram. "Paraplis" can be used on diameters from 19 to 35mm

Its rubber strips avoid damage to the contact surface, while preventing unwanted movements of the umbrella.
